Summary

I have completed my diploma in Computer Science. I have also completed my web development course from programming hero. It was a 6-month journey. I have learned how to learn new Technology in a short time. I have also done some front-end and full-stack projects. My teachers and peers have always commended me for my hardworking.

Skill Highlights

Expertise : HTML | CSS | Bootstrap | Tailwind CSS | JavaScript
Comfort : React JS | Express JS
Familiar : Node JS | Mongon DB
Tools : Visual Studio | Firebase | npm | git | mongo DB | postman | Netlify
Interpersonal skill : Hardworking, Communication, Active Listening, Collaboration

Projects

1. Chef-Recipe-Hunter | Front-end Project | HTML , Bootstrap ,React JS ,Express JS

- There have 6 popular Mexican chefs .and also have their popular recipes
- I also added a login system to this project you must have to sign up
- I also added a private route system if you aren't logged in you can't show recipes
